Dear colleagues,

Yesterday night MSF had a very good media coverage in newspapers and television following our press release we made based on the one you made. barbare in Beograd was interviewed live and i was quoted a few times in the news this morning. Dutch minister will ask for withdrawal of Dutchbat but insists on continuing to protect civilians. We expect much more press inquiries today.

Can you keep us informed us much as possible, also by sending us the sitreps from the field?

Our teams in Zenica and Tuzla are preparing contingency plans. We have a large suply of emergency and normal drugs and medical supplies, as well as hygienic material. Do you have any stock for water material?? Our teams coordinate with UNHCR in Tuzla and Zenica.

regards,

Hans van Oort.
